

Make your own crown

You will need:

- A strip of gold card – 10 cm wide and long enough to go around your head with a few centimetres to spare
- Cotton wool balls
- Gems
- A stapler or double-sided tape
- Glue

Instructions:

1. Cut triangles along one length of the card, to about half the width. These will be the spikes at the top of your crown.
2. Paint a stripe of glue along the bottom of the crown and stick on a line of cotton wool balls.
3. Decorate the spikes with gems.
4. When the crown is dry, join the ends together with staples or double-sided tape and wear proudly!
