

$$\begin{array}{r}
 4 \blacksquare \\
 \times \blacktriangle 5 \\
 \hline
 \blacksquare \blacktriangle 0 \\
 + 4 \blacksquare 0 \\
 \hline
 630
 \end{array}$$

Someone replaced some of the digits with shapes! **Can you help me find the right digits?**

Did you use the right digits?

$$\begin{array}{r}
 42 \\
 \times 15 \\
 \hline
 210 \\
 + 420 \\
 \hline
 630
 \end{array}$$

How did you solve this problem?
 Did you try test digits?
How many different test digits did you try?
