Tablet-Friendly Content Indicator

Update Available to:

A tablet-friendly content indicator has been added to MyCity.

You can now easily see how much content in a MyCity is tablet-friendly. An indicator has been added at various locations throughout MyCity to make it easy for you to view; this also makes it super simple to identify MyCities that are completely tablet-friendly.

! What's MyRevision?

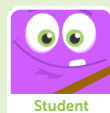

After taking a Test, if less than 100% is scored, a personalised Revision Journal* is generated for students in MyRevision. A range of Activities and Learn Screens are automatically gathered together based on a student's previous Test scores so they can focus on areas of improvement.

Tablet-Friendly Revision Journals

Update Available to:

Revision Journals now prioritise tablet-friendly content.

If students now take a certain Test and score less than 100%, they will receive a Revision Journal that prioritises tablet-friendly content. This has been changed to help those students who use EducationCity on tablets, and to make their learning journeys as smooth as possible.
